The orthography of the Woresster Dictionary is that used by most, if not all authors of distinction in this country and England, and conforms to the general usage of ordinary writers and speakers.

Whatever prejudices may have existed previously, a careful study of this volume will invariably be followed by a warm appreciation of its great merits, and a desire to add it to the well selected library, be it large or mail. It is a library in itself, and will remain an imperishable record of the learning of its compiler.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous teint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is bereditary in the conever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upor

their children." Its effects commence by deposition from the Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions. the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it, To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. such a medicine we supply in

Compound Extract of Sarsaparilla the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the resence of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofule, but also those other affections which arise from it, such as Emprive and Sain Diseases, St. Anthony's Fine, Rose, or Emysipelas, Pinples, Pustules, Blorones, Blains and Bons, Tunons, Terren and Salt RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-BASES, DROPSY, DYSPEPSIA, DEBILITY, and indeed, ALL COMPLAINTS ARISING PROM VITIAindeed, ALL COMPLAINTS ARISING PROM VITIA-TED OR INTURE BLOOD. The popular belief in " caparity of the blood" is founded in truth, for scrofula is a degeneration of the blood. Ague Cure,

FOR THE APPEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary deraugement, canced by the Malaria of Masmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the missmatic poison of FEVER AND AQUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is motonly the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billous districts, where FEVER AND AQUE prevails, every body should have it and use it freely both for oure and protection. A great superiority of this remedy over any other over discovered for the speedy and certain oure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitu-tion. Those cured by it are left as healthy as it

they had never had the disease.

Fever and Ague is not alone the consequence of rever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Ashma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause was a state of the stomach. originating in this cause, put on the intermittent type, or become periodical. This "Cunz" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into discusse. Hence it is even more valuable for protection than ours, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
